Newlyn - Grid

# Moulton

The image displays eight Moulton puzzles, each consisting of a 10x10 grid of numbers (1-8) and a unique path highlighted in black. The puzzles are arranged in four columns and two rows. The paths are labeled with circled numbers: 2, 4, 6, 8 in the top row, and 7, 5, 3 in the bottom row. The numbers in the grids are arranged in a specific pattern that allows for a single continuous path visiting every cell exactly once.

**Puzzle 2 (Top Left):** Path starts at (1,1) and ends at (10,10). The path visits every cell exactly once.

**Puzzle 4 (Top Middle-Left):** Path starts at (1,1) and ends at (10,10). The path visits every cell exactly once.

**Puzzle 6 (Top Middle-Right):** Path starts at (1,1) and ends at (10,10). The path visits every cell exactly once.

**Puzzle 8 (Top Right):** Path starts at (1,1) and ends at (10,10). The path visits every cell exactly once.

**Puzzle 7 (Bottom Left):** Path starts at (1,1) and ends at (10,10). The path visits every cell exactly once.

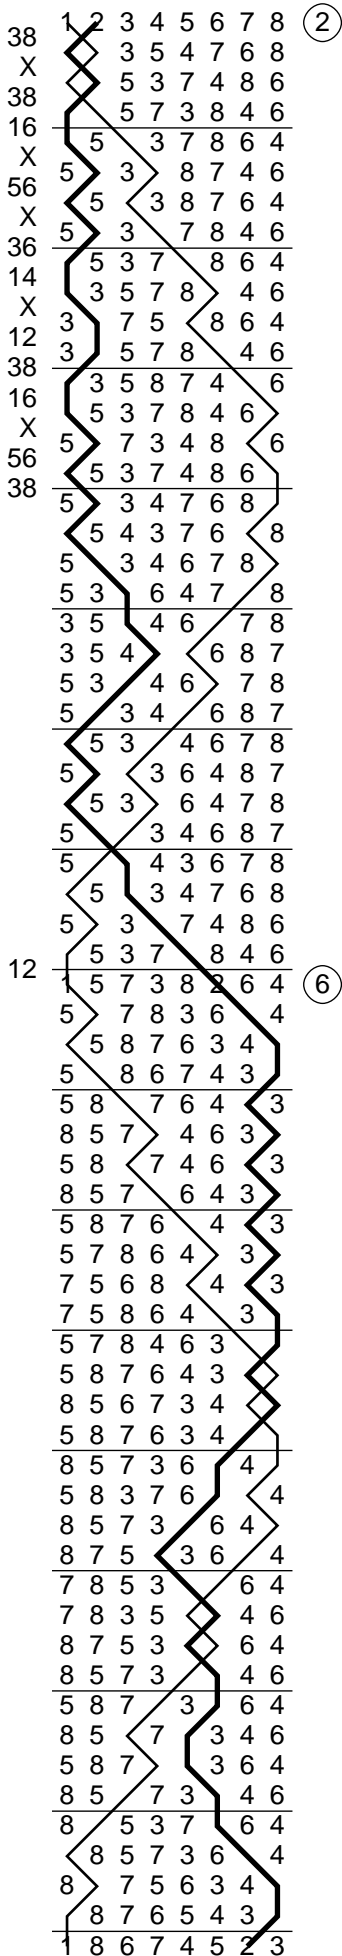

**Puzzle 5 (Bottom Middle-Left):** Path starts at (1,1) and ends at (10,10). The path visits every cell exactly once.

**Puzzle 3 (Bottom Middle-Right):** Path starts at (1,1) and ends at (10,10). The path visits every cell exactly once.
